

INTER-ISLAND SINGING CONTEST HELD; MOLOKAI AGAIN RETAINS BANNER

HILO, July 7.—Molokai will retain during the coming year the banner which denotes it possesses the best songsters. In the inter-island singing contest held here Thursday night in connection with the annual meeting of the Hawaiian Board of Missions, Molokai again was declared the winner. The Haili chorus, Hawaii, was second; Kaula, third; Maui, fourth.

and Kona, Hawaii, fifth. The contest was held in the Hilo armory, which was crowded to capacity. The Oahu delegates left for their homes today.

After being held up for four days at Genoa because of an Austrian submarine attack on a town on the island of Corsica, the White Star liner Canopic arrived at Boston.

Marion Letcher of Georgia, for the past five years United States consul at Chihuahua, Mexico, has been assigned as acting foreign trade adviser of the department of state.

FIRST SECTION NAVAL DRYDOCK NOW COMPLETED

Huge Slab of Concrete Floated to Its Permanent Location At Pearl Harbor

Supported by huge chains to a pontoon of its own size, the first concrete section of the Pearl Harbor naval drydock was successfully floated into position at the land end of the drydock slip yesterday, and is today being inspected. It will probably not be released from the pontoon which is floating it, and sunk in place, until tomorrow or Monday.

Under perfect weather conditions, with hardly any breeze, and the water calm, the huge block, weighing more than 20,000 tons, was lifted from the temporary drydock where it was formed and where it has been "curing" for a sufficient length of time. The pontoon lifted the huge mass with ease and in a short time it was towed up the 1000 foot slip into position above its permanent resting place.

The first section is 60 by 152 feet in dimension, and 15 feet from top to bottom. There will be 17 of these sections, which are cast on piles which have already been driven and filled in with crushed rock, making a level floor of rock and piling on which the sections will lie.

After all the sections are laid a heavy concrete surfacing will be poured over their tops, so that the drydock floor will be one solid mass of concrete for its 1000-foot length, all perfectly level and large enough to hold the longest dreadnought of the United States navy.

Today's and yesterday's handling of the first slab of concrete was watched by Stetson G. Hinds of San Francisco, president of the San Francisco Bridge Company, contractors for the drydock; F. B. ("Drydock") Smith, superintendent of the work for the contractors, and R. W. Atkinson, manager of the Hawaiian Dredging Company, Ltd., which dredged out the debris from the original drydock which buckled from water pressure two years ago just before its first test.

The new drydock is being built in sections out of water, where the concrete for the old one was poured under water. It is the first time in the history of American engineering that this plan has been followed, and engineers are watching its progress with keen interest.

MEETING IS HELD TO ARRANGE PLANS FOR CIVIC CONVENTION

Representatives of various commercial organizations met at the Chamber of Commerce this morning to discuss plans for the civic convention which will be held in Hilo in September. The representatives forming the Oahu civic convention committee organized at the meeting and Raymond C. Brown, secretary of the Chamber of Commerce, was elected chairman and secretary.

A short discussion was held by the representatives regarding the arrangements for steamers and the length of the stay in Hilo. It was decided that until these arrangements had been completed no definite plan could be outlined. Secretary Brown has written William McKay of Hilo, chairman of the Hawaii committee, asking in regard to arrangements being made in Hilo.

Members present at the meeting were: R. W. Perkins of the Rotary Club; L. W. De-Via Norton, Ad Club; Emil Berndt, Hawaii Promotion Committee; Raymond C. Brown, Chamber of Commerce; Ben Hollinger, supervisors; John W. Young, Commercial Club, and Alexander Hume Ford, Hands-Around-the-Pacific Club.

BIDS FOR CITY SUPPLIES TO BE OPENED AT 5 P. M.

Bids for materials and supplies for the use of the various city departments will be opened at a meeting of the board of supervisors to be held at 5 o'clock this afternoon. Many of the firms who bid low last year and were awarded contracts are refusing to bid this year, stating that prices are rising so steadily that they dare not take a chance. It is expected that many of the articles needed by the city will have to be purchased in the open market.

The mayor has had the appropriation bill in his hands since Wednesday noon and board members expect that he will send it back signed this afternoon. Objections to minor items which he entertained are said to have been dispelled.

The contract for the Manoa improvement work is due to be signed this afternoon. The board issued a ten days' notice to the contractor, R. F. Ritchie of San Francisco, on June 27. Bids for the \$146,000 issue of Manoa bonds will be opened August 5 by the city treasurer.

The Cuban senate passed a bill providing that any president who is a candidate for reelection shall retire from office 65 days before the election.

State Senator H. G. Fields of Union, La., was arrested at Baton Rouge, La., charged with stabbing David Ewing, correspondent of a New Orleans newspaper.

Dealings Are Limited When Holders Refuse Higher Offers for Shares

Inquiries for the more stable dividend paying stocks in the list were largely in excess of offerings this morning, brokers reported. Even higher prices did not bring any large increase in offerings and this feature was commented upon freely. Where sales are small the reason is usually assigned that buyers are not in the market, but members of the local exchange remarked that exactly the reverse of that condition existed today.

Oahu was much in demand and sold up to 43 1/2 at the session. Pioneer, which rose \$1 Thursday, was at 53 1/2; Hawaiian Commercial was 52 1/2; Ewa 32 1/2 and Waialua 36 1/2. San Carlos, of the lower priced stocks, advanced sharply to 16. Kahuku advanced to 23 1/2, the asking price of yesterday. Olaa sold at 20 1/2 and McBryde was 13 1/2.

Sales Exceed 2100 Shares. But the curb attracted no such attention as did the sugar stocks. Comparatively little attention was given to unlisted securities and changes in quotations were unimportant.

A large number of graduates in the class of 1916 will be accepted as members at a meeting of the McKinley High School Alumni Association at the school this evening, at 7:30 o'clock. All members of the association are requested to be present.
